☰ MAIN QUALIFICATIONS

- Project Collaboration:
  - o Track record of successfully collaborating with cross-functional teams for front-end project success
- Problem-Solving Skills:
  - o Ability to address complex visual and structural challenges, particularly in migration projects.
  - o Experience working along with design teams and deep understanding on using prototyping tools to achieve a result that remains accurate to the original design.
- User-Centric Design:
  - o Commitment to prioritizing user experience with design best practices, layout, and accessibility.
- Version Control & Collaboration:
  - o Strong proficiency in Gitlab, GitHub, Bitbucket and Azure DevOps for efficient version control and collaboration.
- Methodological Excellence:
  - o Adherence to CSS methodologies for scalable and maintainable stylesheets.
- Clear Communication:
  - o Ability to effectively communicate complex technical concepts to diverse stakeholders.
- Continuous Learning:
  - o Commited to staying updated on the latest frontend technologies and industry.

💼 EXPERIENCE

NTT Data Centers Chile (Remote) | Centers Developer
DEC. 2020 – MAR.2024

Project: Movistar Empresas| Angular UI Developer
AUG. 2023 – MAR.2024
Angular 11.2.14 / HTML / SASS / Material / Ts / Azure DevOps
Working on a project to rebuild the billing and payment module of Movistar Empresas, by implementing services and data on the frontend. Also, I have the responsibility of defining the use of styles on the project, carrying out best practices, and constantly applying QA to the new developments in order to ensure their quality and proper application of the guidelines.

Project: Clínica Alemana| Angular UI Developer
MAY. 2022 – MAY. 2023
Angular 11.0.9 / HTML / SASS / Ts / Bootstrap / Gitlab
Provided crucial support for the web restructuring team, focusing on developing web layouts for new oncology and dentistry modules. Also creating shared components between modules following the guidelines of the design system.

Project: Santander Asset Management | CSS Specialist
OCT. 2022 – JAN. 2023
Liferay 7.2 / HTML / SASS / Bootstrap / GitHub/Freemarker
Took charge of developing a new website for Santander Asset Management using Liferay 7.2, demonstrating proficiency in frontend java-based CMS.

Project: Avangrid | CSS Specialist
APR. 2022 – OCT. 2022
Liferay 7.2 / HTML / SASS / Bootstrap / GitHub
Resolved visual and structural challenges associated with the migration of nine websites from IBM WebSphere to Liferay CMS.

Project: IADB | Angular UI Developer
DEC. 2021 – APR. 2022
Angular 10.0.4 / HTML / SASS / KENDO UI / Bitbucket / Bootstrap
Led the development of web pages in Angular and Kendo UI for the 'Cambio Look & Feel' project within the APC service for the Inter-American Development Bank, by creating and applying different proof of concepts to make crucial decisions for the website construction.

Project: Clínica Alemana | Angular UI Developer
JUN. 2021 – NOV. 2021
Angular / HTML / CSS / TS / Gitlab / Bootstrap
Facilitated the migration of web components from Storybook to Angular Components and played a pivotal role in constructing web pages at Clínica Alemana, collaborating closely with the Design Experience Team.

Project: BCI W&IB | Angular Developer
DEC. 2020 – JUN. 2021
Angular 5.1.1 / TS / Bitbucket
Contributed as a Angular Front End Developer on the BCI 360 Connect Project for BCI Bank, specializing in wholesale & Investment Banking, in the creation of the key project 'E-sales'.

Freelance | Web Developer
2018 – 2020
WordPress / Elementor / cPanel
Independently managed and executed web development projects, demonstrating proficiency in WordPress, Elementor, and cPanel.

EDUCATION

Programmer Analyst | Universidad Tecnológica de Chile INACAP
2018 - 2022
Graduated from Programmer Analyst.

SKILLS

- **Programming Languages:** HTML, CSS, SASS, Java, Typescript.
- **Frameworks:** Angular, Ionic, Kendo UI, Material.
- **Development Tools:** VSC, IntelliJ, Webstorm.
- **CMS:** Wordpress, Liferay.
- **Prototyping Tools:** Adobe XD, Figma, InVision.
- **Version Control:** Gitlab, GitHub, Bitbucket, Azure DevOps.
- **Methodologies:** Agile, Scrum, Waterfall.
- **Languages:** Spanish (native), English (B2), French (elementary).

⋯ OTHERS

- Newcomer in Canada:
  - Having recently relocated to Toronto, Canada, I am equipped with an **Open Work Permit**. I arrived in late April and am **immediately available** to start working from May 2024 onwards. This new chapter in my life has begun, and I am very excited to explore opportunities within the local job market.
- Volunteer at TEDx Talk:
  - I volunteered for a TEDx Talk organized by my university in 2018. My role was directly involved in the event's organization, which took place at the main theater in the city of Temuco, Chile. Thanks to this volunteering experience, the university gave us as a gift the chance to participate in a team leadership training provided by Cooltura. It was a wonderful experience of teamwork that I will never forget.
- Digital Front Team at NTT Data:
  - As a member of the specialist team 'Digital Front' at NTT Data, I took the 'Front Designer' path (CSS Specialist), so my primary responsibilities include the meticulous construction of web layouts, focusing on semantic HTML, CSS, CSS architecture, accessibility, and ensuring optimal responsiveness. Engaging with the team at least twice a week, we actively exchange knowledge, fostering a collaborative and innovative environment.
