EXPERIENCE

Front-End Developer | Angular UI Developer
NTT Data Europe & Latam | Remote   *Dec 2020 – Mar 2024*

At NTT Data, contributed to a diverse portfolio of high-impact projects across multiple sectors, including finance, healthcare, telecommunications, and service provision. Key projects included:

Angular UI Developer
Telecommunications | Project Movistar Empresas   *Aug. 2023 – Mar. 2024*

- Constructing an incredible new front-end for the payment module. Established and implemented comprehensive style guidelines, ensuring cohesive design across the project.
- Drove adoption of best styling practices in development and conducted rigorous quality assurance, resulting in a polished, high-performance product that consistently met and exceeded stakeholder expectations.

Angular UI Developer
Finance | Project Inter-American Development Bank   *Dec. 2021 – Apr. 2022*

- Led the redesign of the APC service website for the Inter-American Development Bank.
- Developed and implemented multiple proof of concepts, driving critical decision-making processes for website construction. This strategic approach ensured optimal user experience, enhanced functionality, and alignment with the Bank's digital transformation goals.

Angular UI Developer
Health | Project Clínica Alemana   *Jun. 2021 – Nov. 2021*

- Facilitated the refactoring of components from Storybook to Angular Components and played a pivotal role in constructing web pages at Clínica Alemana, collaborating closely with the Design Experience Team.

Angular UI Developer
Finance | Project BCI Wholesale & Investment Banking   *Dec. 2020 – Jun. 2021*

- Integral team member in creating 'e-sales', a strategic internal project for BCI Bank, one of Chile's leading financial institutions. This business-critical software streamlined stock trading operations, enhancing efficiency and profitability for the bank and its clients.
- Contributed key features that optimized user experience and system performance, directly impacting the bank's competitive edge in the financial market.

WordPress Developer
Freelance | Remote   *Jan. 2018 – Mar. 2020*

Autonomously led and delivered multiple web development projects, showcasing expertise in WordPress, Elementor, and cPanel.

- Managed all aspects of development from concept to deployment, ensuring high-quality, client-focused solutions that met and exceeded project objectives.

EDUCATION

Computer Science
Technological University of Chile INACAP | Temuco, Chile   *2022*

Graduated with diploma in Programmer Analyst program.
